DATE: NOVEMBER 2021

VERSATILE ENTRY-LEVEL
CARAVAN: **THE LMC SASSINO**

QUALITY. TRUST. AT HOME. **LMC**

THE FREE AND
INDEPENDENT
WAY TO
HOLIDAY

DISCOVER
CARAVANING-LIFESTYLE!

The LMC Sassino is our entry-level model for young couples and families. It is the perfect choice for discovering the freedom of holidaying in a caravan for yourself and your family. With a total of five compact and well thought out layouts, the Sassino offers up to six sleeping berths in single, double or bunk beds. Clever solutions and a well-designed habitation space make the smallest caravan in the LMC product portfolio (total width 2.12 metres) a reliable and familiar home-from-home.

LMC is the down to earth and honest brand you can rely on for holiday happiness. Every day, we make holiday dreams come true with over 65 years of experience and passion, as well as plenty of creativity, at our production site in Sassenberg, Germany. Our entry-level model promises those new to caravanning outstanding camping fun at an affordable price. Welcome inside the LMC Sassino!

LIGHT, MODERN DESIGN -
LOVINGLY FINISHED

Thanks to particularly large windows, the interior is flooded with light and features calm, warm colours and furniture in the welcoming wood finish "Maryland Oak". Everyone will immediately feel at home here. The wide overhead lockers and various compartments underneath the bench and the bed offer plenty of storage space. The generously-sized front dinette in the 460 E model effortlessly converts into a double bed - which creates two additional comfortable berths and ensures that everyone gets a good night's sleep.

Our product designers really put themselves in the shoes of the holidaymakers to ensure that you feel utterly comfortable inside the finished product. To achieve this, we focus on design- and functionality-oriented interiors with plenty of storage space and surfaces that are beautiful as well as practical, as well as many small convenient details that make your holiday easier.

FEELING
COMFORTABLE
AND AT HOME

CAREFREE AND
RELAXED TRAVEL

EQUIPPED WITH
EVERYTHING YOU NEED

The Sassino's extensive features are impressive. Even the smallest layout model (390 K) still provides plenty of scope for your own preferences and for adding personal accents. In the 460 E model, the end single beds, arranged lengthwise, effortlessly convert into a double bed as they are based on the rollaway principle. The kitchen and washroom are both located in the centre of the vehicle.

With a raised transverse double bed at the front and an end bunk bed, the family model 470 K easily sleeps four to six people.

TOTALLY FLEXIBLE,
PRACTICAL AND COSY

Together with the dinette, the high-quality cooking area is the Sassino's cosy hub. It is equipped with a three-burner gas hob with electric spark ignition, an integrated sink and a refrigerator - in fact, with everything you need for unhampered cooking enjoyment.

The family layout's clever table solution illustrates that every bit of space is utilised to perfection. The table, positioned next to the transverse double bed, can simply be pushed inside the bed carcass, if necessary. Once you are ready to eat, simply pull the table out, fold down the table leg and serve!

HOME FOR HOME

INTERIOR HIGHLIGHTS

- Numerous large windows create a bright atmosphere flooded with daylight.
- Everyone can come along - the bunk beds for children have a weight capacity of 80kg, so even older children can sleep in them comfortably.

- The uniform colour scheme of the overhead lockers in the sleeping area creates a calm and well-balanced ambience.
- Comfortable entertainment enjoyment is guaranteed by the optional TV-readiness ex-factory and the optional flat screen TV bracket.

IMPRESSIVE **FUNCTIONAL FEATURES**

CLEVER SOLUTIONS

1. The overhead lockers in the sleeping area offer plenty of additional payload space and room for all of the important holiday accessories.
2. The hob is easy to use thanks to the practical electrical spark ignition.

3. Charging electrical devices is easy even for the youngest family members thanks to an USB socket integrated in the bunk bed light.

FOR THOSE **NEW TO CARAVANNING**

EXTERIOR HIGHLIGHTS

- 1. Standard GRP roof offers the highest level of protection against the effects of inclement weather
- 2. Dynamic LMC family design decals
- 3. The exterior's hammered finish provides protection against external factors
- 4. Outstanding safety and comfort thanks to premium chassis

BORN FROM A PASSION FOR CARAVANNING

Simply taking off and enjoying the most wonderful moments of the year. With a vehicle from LMC, you can look forward to doing precisely that whenever you want.

At its production site in Sassenberg, Germany, the creative caravan manufacturer builds modern, future-proof and light engineered caravan, motor-home and camper van models with well thought out layout options that meet all requirements, and plenty of features that reflect the engineering skills Germany is famous for. Our highly-qualified staff know exactly what matters. As passionate campers, we make every effort to ensure that our vehicles are so well designed in terms of quality, safety and comfort that they meet our own high standards. To make sure that all you have to worry about is rest and relaxation, they feature clever technology and functional solutions both inside and out. All LMC components are designed with durability and value retention in mind – your investment into an LMC is therefore a sound choice.

WE MAKE IT **EASY FOR YOU**

Our engineers rely on cleverly designed lightweight furniture and use a well thought out mix of materials and special light engineered components to guarantee that you benefit from a generous user payload.

Across all of our model ranges, we create clear structures and provide transparent information to make it as easy as possible for you to choose the LMC that's right for you.

“LMC are genuine innovators. We love coming up with unique and clever solutions, and perfecting them until they are ready for serial production in our models.”

PATRICK SCHAAR, Management internal sales

QUALITY YOU CAN RELY ON

LMC stands for outstanding quality, reliability and long-lasting value. We use advanced production technologies to be able to guarantee all three. For added security, we give you our unique quality promise: a twelve-year water ingress warranty.*

See our homepage www.lmc-caravan.de for more information, or ask your dealer.

* All LMC caravans come with a twelve-year water ingress warranty, provided the vehicle is serviced annually by an official LMC partner (service charges apply).

IMPORTANT INFORMATION

All accessory prices are for factory installation. Subsequent installations are subject to additional costs. Any change to the factory settings of your vehicle can lead to impairment of driving or road safety. Accessories recommended by us and original replacement parts have been specially developed for your vehicle and approved by us. Your LMC dealer carries these products; he/she is informed of permissible, technical particulars, and performs the necessary work in a competent manner. Accessories, fixtures, conversion or assembly parts that have not been approved by LMC can lead to damage to the vehicle or impaired road safety.

Even if there is an expert opinion from a specialist regarding the part, a general operating licence for the part, or a type-approval certificate, this does not presume the proper constitution of the product. Please understand that no liability can be assumed for damages caused by products that have not been approved by LMC, or by unauthorised modifications.

The weight in roadworthy condition (footnote 1) corresponds to the series design without optional extras. Installation of optional extras increase the weight of the caravan in roadworthy condition (footnote 1), and the cargo load is reduced accordingly (footnote 2). Please take the weight of the optional extra into account with regard to the cargo load (footnote 2).

Changes to prices, technical data, fixtures and furnishings, as well those regarding creative aspects, remain reserved. Information about scope of delivery, appearance and services, correspond to the information available at the time of printing. Deviations of +/- 5 % are possible in measurement and weight data.

The cargo load (footnote 2) derived from it can vary correspondingly. Our weight information complies with requirements of EC-Directive 661/2009 and Regulation (EU) 1230/2012.

For safe operation of 12 V devices in the caravan while driving, it must be ensured that the towing vehicle has sufficient voltage. With some vehicles it is possible that the vehicle's battery management switches the battery consumption unit off for protection. Obtain information about this from your vehicle manufacturer.

Corresponds to the current status at the time of printing. We reserve the right to technical modifications to the construction and outfitting, deviations to the colour, or mistakes, colour deviations, are partially print or lighting related.

Some illustrations include optional extras subject to extra cost.

All prices are recommended retail prices in euros, incl. statutory value added tax ex works LMC.

The validity of all previously published price lists expires with the publication of this price list. Valid from 01/11/2021.

FOOTNOTES

- 1) This weight includes the standard design dimensions according to manufacturer information: Liquid, such as fresh water, gas (aluminium bottles) at 100 % and cable drums, without optional extras. This corresponds to a weight of approx. 33 kg (Sassino).
- 2) The cargo load must not be exceeded by personal equipment and optional extras.
- 3) Exterior storage door on 490 K, 520 K, 522 K, 530 K remains, however no function since the lower bed must not be set up.
- 4) Flatscreen holder ex works mounted (only TV-spot 1).
- 5) Incl. 2x 230 V socket, 1x 12 V-socket, SAT-connection and antennae cable from closet to TV-spot.
